OFFICE OF THE DAILY APPEAL. } The weather continues wet, and the damage to the crop is almost recisionlable. But and the worm will, we fear, cause the yield to be lighter than even the lowest estimate made as yet. rom all sections the reports are of a doleful character, and in some sections the whole cropping been destroyed. From the Islands, the news is equally discorriging, and the set islands of the sections will prove a failure. Information I we increase it was increased to be sections when the sections were sections as the section of the sections of the sections when the section is the section of the s is growing, gives a sail picture of the ravag selections of the caterpillar, and the prospects are that NEWTON FOR the damnies this season will be as great as on C. Many of them who contemplated going North for goods have delayed their departure to see what the Prenext few days has in store for us.

Money matters are not at all series. The dethe weather become aniavorable, and our banks do not show the same disposition to come forward with assistance which they evinced only a short time back. The future, in fact, has lost vary much of the hopeful appearance it but recently bore, and our merchanishes now very nearly as despondent as they was hefer a full of nearly as they were before full of hope.

The best demand for City Bonds comes from spitalists of Baltimore. They have examined Schiedam Schnapps.

"HEEFPHIS, TENNS., January St, 1898.
"I Lake pleasure in recommending to planters cultivating Cotton on bottom lands of the Miesiscippi, Arkunssas, White and St. Francis rivers, the Eurean Gin, made by Daniel Prott, of Alabama. This Gin separates the hulls, bolls, etc., from the Seed Cotton, makes a good sample, and is superior to any other Gin for bottom lands. I have used one myself on a farm in Washington county, Miss., and it operates well and gives entire satisfaction in every respect.
